MESSAGE IN BRIEF
- DHS received thousands of comments regarding the sheltered workshops. We heard loud and clear the value of having a choice. The changes reflected in this document help reinforce our commitment to providing that choice.
- DHS is not closing workshops or adult day programs for individuals with intellectual disabilities. We are proposing changes that allow providers to modify their service models over time to support people in integrated community settings.
- Each individual has the choice of whether or not to participate in community activity, the amount, and frequency.

AT THE DEPARTMENT OF HUMAN SERVICES, we are committed to serving more people in the community and giving them access to high-quality services. One of the ways we hope to accomplish that is through the renewal of the Office of Developmental Program’s (ODP) Consolidated and Person/Family Directed Support (P/FDS) waivers. These waivers serve 32,000 Pennsylvanians with intellectual disabilities.

The department is committed to full transparency on this critical process and, in December, published the documents seeking valuable public input for consideration. We received more than 2,000 comments from consumers, family members, and stakeholders.

We value your input and in response to those comments, we are making the following changes to our application for renewal of the Consolidated and P/FDS waivers regarding sheltered workshops:
